

About the Artist

I have been an avid "crafter" all my life. I love trying new mediums. While playing with copper wire, I was told that my work deserved sterling silver. I love working with wire and recently invested in gold filled wire (100% more gold than gold plated). A lot of my jewelry is made on the Wigjig®, but I do some free-hand work also.

My second favorite medium is paper. I love doing origami, but love doing a craft called Scherenschnitte (which is German for scissors cutting). It is a very time consuming craft and as yet I cannot make it pay for the time involved in production. I do love folding paper though and I offer for sale gift bags in a variety of papers. One bag is given free with each purchase over \$10.00
